

An array of correspondents in all principal towns and villages of central and northern Alberta keep Bulletins readers informed about district happenings. The Bulletin's district news is a daily duty.

Seer Seeks Sight of Success

FACING EAST—toward Winnipeg and Toronto—the great seer Abu Ben Annis stares into the ball which tells all. He predicts decisive victory. Ball may have told wrong story to Eskimo coach as team prepared to head east tonight, but it will tell final story when they meet Blue Bombers Saturday—and maybe Monday—

for western Canadian championship. Swami Stook was also able to see "yee, a chalice filled with fruit, yee, filled with berries." Obviously means Berry is going to spark Zeke to the Grey Cup. But, of course, those could be raspberries Winnipeg fans will taste at a defeated Eskimo team Monday.

Alta. Defence Co-ordinator Committee Start Work Soon

A general co-ordinator and a committee of 12 persons will start working soon on Alberta's civil defence plans.

COLEMAN HAS WORDS FOR IT

There are some people who take a very dim view of the new-found friendship between the cities of Calgary and Edmonton in the field of football.

Jim Coleman, nationally-known sports columnist, tells about it in a column written exclusively for The Edmonton Bulletin today. It's on page 14.

Received by Pope

VATICAN CITY, Nov. 9.—(AP)—Pope Pius today received James Cardinal McGuigan, Archbishop of Toronto, in private audience.

Eisenhower Hints He Will Be Sent to Europe

PORT WORTH, Tex., Nov. 9.—(AP)—Gen. Dwight Eisenhower said yesterday he could "easily be in Europe soon for whatever military duty may be in store for me."

The Fort Worth Star Telegram interpreted that to mean Eisenhower will "soon be in Europe" as commander of the western European defence forces.

The general said at a press conference here as he opened a four-day tour of Texas: "There has been considerable speculation in the papers about the job I may be taking over here. I can only repeat what I have said: 'I'm a soldier and I'll serve wherever I am asked to serve.'"

The general, now president of Columbia University, recently conferred with President Truman. The meeting was reported on the western Europe post. North Atlantic defence ministers also met recently, presumably to discuss the same thing.

The general said he could not comment on the role Western Ger-

Boy Climbs Fence To Avoid Paying: Is Electrocuted

WINNIPEG, Nov. 9.—(CP)—A 15-year-old boy attempting to climb a fence into Osborne Stadium last night touched a power line and was killed.

The lad, Howard Benson, had money to see the hockey game between Brandon Wheat Kings and Winnipeg Monarchs but decided to crash the gate because it was "more fun that way."

His parents, two sisters and a brother were inside the arena watching the game when an announcement came over the loudspeakers that Howard had been electrocuted.

Jet Crash Kills 2

COPENHAGEN, Denmark, Nov. 9.—Reuters—A Danish jet fighter exploded in mid-air over Jutland yesterday killing the crew of two.

Attendees at St. Joseph's hospital said the baby is believed to be one of the smallest born in Canada.

The child, whose 28-year-old mother, Mrs. Bert Davis, gave birth unattended in her apartment home, was sent to hospital by police and placed in an incubator. Mary Fitzgerald, the hospital nurse supervisor, is credited with keeping her alive.

The infant was fed only glucose at first but now eats both

glucose and a special powder food, attendants said.

Doctors estimated the baby was born about 2½ months prematurely. Mrs. Davis said 2½ months.

The child is about eight inches long, well formed and doll-like.

The mother said today the child was born shortly after she lay on a bed because of back pains. Minutes after the birth, she said, she got up and wrapped blankets about the infant.

Her husband called the police. (Dr. G. J. Quigley) and the police. The little thing started crying right away and kept it up until the doctor arrived. Two policemen took her to hospital.

Open Sunday Plebiscite May Go To Coast Voters

VANCOUVER, Nov. 9.—(CP)—A plebiscite on a wide-open Sunday may be put before the voters in the civic election here Dec. 13.

The finance committee of the council favored by a five-vote margin to "put it up to the people."

It would permit all forms of week-day entertainment—such as sports, including horse racing and theatre entertainment on Sunday. The committee decision must be ratified by a formal council meeting next Monday.

BORN IN HAMILTON

HAMILTON, Nov. 9.—(CP)—A little girl whose weight is estimated at one pound was born here Saturday, about three months prematurely.

Attendees at St. Joseph's hospital said the baby is believed to be one of the smallest born in Canada.

The child, whose 28-year-old mother, Mrs. Bert Davis, gave birth unattended in her apartment home, was sent to hospital by police and placed in an incubator. Mary Fitzgerald, the hospital nurse supervisor, is credited with keeping her alive.

Woman, Girl Die in Car Of Monoxide Poison

Air Raid Is Biggest Of War

U.S. Fliers Hit Bridge Links

By MANCHURIAN

To RALPH TEATSORTH

Exclusive to The Bulletin

TOKYO, Friday, Nov. 10.

(UP)—American Navy's biggest air strike of the war smashed Yalu River bridge links in the Chinese Communist lifeline from Manchuria Thursday.

American Superforts and smaller planes of the U.S. 5th Air Force joined in the pulverizing assault on Communist strongholds in North Korea and on transport lines over which Chinese divisions moved to join the fighting against the Allies.

U.S. airmen ran up a score of two Russian sweep-planes jet fighters destroyed, another probably destroyed, one damaged and one probably damaged, while two Yak-type fighters were destroyed.

For the third day the Chinese and North Korean troops faded back from the front lines and avoided combat. A U.S. Army 2nd Corps spokesman said the enemy seemed to be shifting eastward from the heavily defended Chongchun river line in the northwest.

Rear Admiral John Hoskins, commander of the carrier group, said the navy strike was "the biggest of the Korean war in every way—the number of planes, and its importance. It was like World War II gladiators used to be."

Ace Buried In Israel

HAIFA, Israel, Nov. 9.—(Reuters)—Pit. Lt. George (Buz) Beurling, Canada's top air ace of the Second World War, today was laid to his last resting place.

Beurling's remains were reburied at the foot of Mt. Carmel, near the cave in the prophet, Elijah. Buried beside him was his Jewish friend, Sgt.-Ldr. Leonard Cohen.

Beurling—a Christian—and RAF ace Cohen were killed in May, 1948, when a plane they were ferrying to Israel exploded in mid-air near Haifa.

Beurling was credited with 31 enemy aircraft during the war. He fought at Malta when air battles over the island were fierce.

At the funeral procession wound through Haifa's main streets Israel's flag and flags were lowered to half-mast.

Russ Seize British Boat

MOSCOW, Nov. 9.—(Reuters)—Russia notified the British embassy today that the 34-ton trawler Lancia had been detained for fishing inside the three-mile limit.

The case has been passed to Soviet courts.

The Russian government was replying to a note of Oct. 31 by British ambassador Sir David Kelly inquiring into the reported arrest of the vessel in the White Sea.

The Lancia is the fourth British trawler detained by Russia on charges of illegal fishing in the White Sea in the last six months.

The Russian government was replying to a note of Oct. 31 by British ambassador Sir David Kelly inquiring into the reported arrest of the vessel in the White Sea.

Albertans Export Cold To Texans

We're freezing 'em out, close down the Gulf of Mexico.

For what consolation it's month-end-of-schedule cold weather right down into hot country.

At Dallas, Texas, it's down to 40 and heading lower. The cold front is just approaching Galveston.

In Edmonton, it's gradually warming up, thanks to large shipments of cold air south to Texas and way points.

High today will be 30 with 30 in sight for tomorrow. Yesterday's high was 15.

Slightly above

It felt like this morning, but to be exact, the low point for the last 24 hours was at 6 a.m. and it was eight tenths of a degree above zero.

Tonight's low is likely to be about five above.

It's warming up in the north country. A few days ago, they were shivering at temperatures varying from 20 to 40 below.

Y.T. a mere 15 below.

Grande Prairie had 6 below, Calgary 5 below, Lethbridge 1 below. It was 4 above at Saskatoon and 20 above at Winnipeg.

In northern Manitoba, in the Brochet and Churchill areas 10 inches of snow fell during the night.

At Vancouver, the mercury slid to a low of 26 degrees above zero last night—coldest night since last March.

Checking exhaust of death car in which two persons died of carbon monoxide poisoning early this morning are constables Alex Ondaiche, left, and David Mcintosh. Found dead, huddled together in seat of automobile with motor running at corner of 130 street and 118 avenue, were Mary Fika, 10639-95 street, formerly of St. Lina, Alta., and Douglas Aunley, Fairbanks, Alaska.

Found By Police In Early Morning

Deadly carbon monoxide fumes from a running motor snuffed out the lives of two young persons while they sat in a parked car in the west end early this morning.

They died a few scant minutes before a police patrol car on a routine check of the district discovered the death car.

Slumped in the front seat were: Mary Fika, 18, 10639-95 street, and her companion, Douglas Aunley of Fairbanks, Alaska.

The two were found when patrol car No. 9 investigated the car parked at 130 street and 118 avenue with its windows tightly closed and motor running.

The death car was discovered at 3:50 a.m. this morning. An inhalator squad of the city fire department rushed to the scene but efforts to revive the pair were fruitless.

Dr. M. M. Cantor, provincial coroner, investigated and estimated the time of death as between 2:30 a.m. and 4 a.m. He pronounced death due to carbon monoxide poisoning and stated that no inquest would be held.

REEKS OF FUEL OIL

Prowler car officers Art McCormick and Ed Walker stated that when they opened the door of the car, it reeked of fuel oil.

The bodies were taken to Park Memorial Funeral Home by City Ambulance. The car was towed to the police station garage where it is under investigation.

Mary Fika, the dead girl, was employed as a waitress by the Golden Gate Cafe. She had worked there for the past eight months.

Besides her parents at St. Lina and brother Nick in the city, she is survived by six brothers and one sister: Peter and George, Chicago, Alex, Edmonton; Bill, John and Andrew, St. Lina; Mrs. Annie Wyshonen, Borden, Alta.

Little is known of Aunley other than that he was driving his 1947 Plymouth from Fairbanks to his home in the United States.

HMCS Nootka Is Korea-Bound

HALIFAX, Nov. 9.—(CP)—The Canadian Navy announced today the Tribal class destroyer HMCS Nootka will sail from Halifax Nov. 15 with its ultimate destination Korea.

The ship, under the command of Cmdr. Alexander B. Fraser-Harris, will head for Pearl Harbor via the Panama Canal and place herself under the control of the command-in-chief of the United States Pacific fleet.

GOES ON PENSION

'World's Richest Cop' Found Hay in Market

CHICAGO, Nov. 9.—(BUP)—The "world's richest cop" went into retirement today as a pension.

Capt. Daniel A. Gilbert, chief of the state's attorney's 20-man police force, resigned after his overwhelming defeat in the race for Cook County sheriff.

He was beaten by Republican John E. Hall by more than 300,000 votes.

A few weeks before the election Gilbert was questioned by the Senate crime committee.

Gilbert, appearing voluntarily, told the committee he had no connection with gangsters.

He said he amassed his personal fortune, estimated at \$345,000, in stock and grain market speculation and by betting on political elections.

Gilbert resigned from the state's attorney's staff last year and said he also is retiring from the Chicago police force on the \$2,033 annual pension for police captains.

States Will Press China Red Charges

Speedy Action Wanted On Red Intervention Charges

By Tom Ochiltree

LAKE SUCCESS, N.Y., Nov. 8.—(AP)—The United States intends to press without delay its charges of Chinese Communist intervention in Korea, despite the inclination of some other members of the United Nations Security Council to proceed slowly with the case.

An American source said the United States delegation last night was making a final check with Washington on the wording of its resolution and might bring the document into the UN today.

Active votes were cast by the United States, Britain, Russia, France, Ecuador, India, Yugoslavia and Norway. Nationalist China and Cuba opposed the resolution and Soviet abstained.

Since the question was one of procedure, Nationalist China's vote did not constitute a veto. The council rejected a Russian proposal that would have allowed the Chinese Communists to participate in discussions of all angles of the Korean case.

Austin said he would regard the Chinese Communists as defendants called upon to explain. If they could, the dangerous actions of Mao Tse-tung's government.

Possibly information gained from the Chinese Reds might help prevent a general war, Austin said.

Calmar Man To Be Buried On Friday

Wilfrid Joseph Kahn, 58, of Calmar, died at his home in Calmar yesterday.

Mr. Kahn was an Alberta resident for 47 years. Born in Oshawa, Ont., he moved to the Calmar district in 1903 and there farmed for 35 years.

He is survived by one brother and one sister, James of Vancouver, and Kathleen of Leduc.

Funeral services will be held Friday at 10:30 a.m. at St. Michael's Church in Calmar. Rev. R. Malone officiating.

Burial will be in the Edmonton Roman Catholic Cemetery. Hainstock and Son, Funeral Directors, are in charge of arrangements.

Subsequently the council by a vote of 8 to 2 approved a British resolution inviting the Chinese Communists to send representatives here to answer the charges. Affirm-

Lhasa Entry By Chinese Unconfirmed

By William Richardson

STOCKHOLM, Sweden, Nov. 8.—(CP)—A report from India's representative in the Tibetan capital of Lhasa to day ignored unconfirmed reports of Chinese proposals on future relations between Communist China and Tibet.

The Indian representative, S. Sinha, declared instead that there had been no appreciable change in the situation since his last report, received here Sunday.

That message said Tibet's 15-year-old ruler, the Dalai Lama, still was in Lhasa and that his cabinet and the national assembly were in continuous session.

Meanwhile, a Peiping radio broadcast, heard at Kallingsborg, caravan centre on the India-Tibet border, claimed Communist troops advancing into the isolated priest-ridden country had entered Lhasa. The broadcast was made in Tibetan.

However, English-language broadcasts of the Peiping radio heard at New Delhi by the All-India radio, made no mention of Chinese troops entering Lhasa.

In a reference presumably to possible future attempts to evacuate the Dalai Lama, Sinha advised that no landing strip had been prepared in Lhasa but that a plane, in an emergency, possibly could land on a sandy stretch near the capital.

The unconfirmed reports from Kallingsborg of the Chinese offer to the Reds proposed to station troops in Lhasa and to control Tibet's defence, foreign relations and internal communications.

The Chinese were reported offering in return to leave Tibet's internal administration to the regime of Buddhist priests who now control the country.

Judge's Funeral Set for Friday

CALGARY, Nov. 8.—(CP)—Funeral services for Chief Judge J. W. McDonald of the district court of Southern Alberta, who died Wednesday morning, will be conducted here Friday.

The court house will be closed while the funeral is being held to enable the staff to attend the service.

Thousands Attend Rites For Beloved Monarch

By William Richardson

STOCKHOLM, Sweden, Nov. 8.—Kings and ambassadors and tens of thousands of mourning Swedes joined to day in last rites for Sweden's King Gustaf V.

A solemn cortege wound through Stockholm along a crowded route from the palace behind the coffin, which rode on a carriage pulled by six jet-black horses.

Gustaf was said to rest beside his wife in a 13th century church beneath the banners Sweden had worn before he steered the country to neutrality.

The new king, Gustaf VI, son of the monarch who died Oct. 29 at the age of 82, led the procession. Norway's tall, gaunt King Haakon, Denmark's blond and handsome King Frederik, and Finland's president Juhko K. Paasikivi walked behind.

Then came a dozen princes, a score of nobles, and a host of ambassadors and plenipotentiaries from most of the major nations of the world, including Soviet Russia.

Swedes flocked to the capital to pay their last homage to the democratic-minded king they knew as "Mr. G." Some came from as far as the Arctic Circle.

Light snow mingled with rain fell from leaden skies on the funeral procession.

Only a few hundred invited guests passed through the old Roman doors of the medieval church of Riddarholm, Sweden's Westminster Abbey on the lake of Nobles, for the final farewell.

Melbourne Quad Lives 5 Days

MELBOURNE, Australia, Nov. 8.—(AP)—Gerard Raymond, eldest of the five-day-old Ogle quads, died today.

There was anxiety about the survival of the other three children of Mr. and Mrs. Gordon Ogle of Melbourne.

Doctors said, however, that they were hopeful they would pull through.

From 1929 to 1949 the net national income of Canadians climbed from \$4,289 million to \$12,000 million.

Defence Set-up Will Start Work

(Continued from Page 1)

Saskatchewan, may link their defence plans with several western states, Mr. Gerhart said.

The committee of 12 will include persons from all parts of the province, he said.

Groups such as the Boy Scouts, Girl Guides, Red Cross and St. John's Ambulance Society, will fill major roles in the defence program. Training for the various leaders in the scheme will be given by men who have just completed special training in Britain and will be returning to Canada soon.

Leut.-Col. E. "Ted" Brown, chairman of the veterans welfare commission for Alberta, will be in charge of civil defence mechanical of the scheme.

Gen. Worthington announced yesterday that Canada will have a civil defence school within three months.

Mayor Sidney Persons attended today's session on the invitation of Mr. Gerhart.

Chamber Plans City Motif For Meeting

Next Chamber of Commerce annual meeting will be "a purely Edmonton show," executive secretary Don McKay said today.

The secretary said when the city chamber holds its biggest meeting of the year, Jan. 17, the customary policy of inviting outside speakers will be scrapped.

The motif of the meeting will be to highlight outstanding civic events in past years and to recognize persons and organizations who, through contribution to the community, made headlines during the period," Mr. McKay stated.

Art Expert Dies

LONDON, Nov. 8.—(AP)—Sir Augustus Moore Daniel, 83, art expert and archaeologist, who was director of the National Gallery from 1929 to 1932, died yesterday.

Bodies Found Strewn 'Midst Burned Wreck

Butte, Mont., Nov. 8.—(UP)—

Bodies of the 22 passengers and crew members aboard a Northwest Airlines plane were found today, strewn amidst the burned, twisted wreckage high on the continental divide.

A ground party which soared through snow to the wreck three miles east of Butte reported that the 18 passengers and four crew members were killed on impact.

"Identification of the bodies will be difficult," a coroner at the scene said.

A helicopter pilot first spotted the tall assembly of the plane jutting from the rocky, 8,500-foot peak yesterday morning. He radioed, "No doctor needed, but advise ground party to carry 22 body bags."

The plane plowed into the boulder-strewn, snow-capped peak early Tuesday morning. Apparently it dived into the crag as it began its descent into Butte airport. It was flying on instruments from Helena, Mont., in a blinding blizzard.

Crew members included pilot Lloyd Lampman, 37; co-pilot J. Huff, 29, and two stewardesses, Miss Laurine Nohr, 25, and Miss Marjorie White, 25. Passengers included 20 Montanans.

Minister Warns About Gas Export

Dr. Robinson Cautions Albertans
To Consider Full Utilization

MEDICINE HAT, Alta., Nov. 9.—(CP)—Dr. J. L. Robinson, minister of industries and labor, last night cautioned Albertans against "overlooking the possibility of full utilization of natural gas within the province."

Synchronized Lights Slated For Jasper

Traffic lights on Jasper avenue will be progressively synchronized on a trial basis despite civic authorities fears such a move "might create a speedway."

That was one of the points stressed in a report to the Edmonton Chamber of Commerce yesterday from its traffic co-ordinating committee.

Report was made following a committee interview this week with Mayor Sid Parsons, city commissioners and city engineer.

No date was given for start of the system.

BLINKER LIGHT
A blinker light at 116 street and Jasper avenue will be installed "for the time being" in an attempt to slow down traffic at that point, the report stated.

Other information from civic authorities to the chamber's traffic committee included assurance that:

1. City police department would devote more time to educating motorists and will use mechanical loudspeakers more frequently.

2. Increase in fine for speeding in school zones had "sharply minimized" the problem.

3. Left hand turn signs will be moved "in many instances" so that they can be seen more effectively at night.

COULD NOT CONCUR
Committee's report said civic authorities "could not concur" in the chamber's suggestion that left hand turns be prohibited only during rush hours rather than during all hours. Authorities thought restricting left hand turns to certain hours green light at each intersection.

It also said that if a national war emergency ever required the establishment of a second synthetic rubber plant in Canada, "it will undoubtedly be located in Alberta."

"I am hesitant to see a valuable resource like natural gas sent elsewhere to create jobs which might very well be created in Alberta."

"I am not suggesting this—but the idea might be debated of offering our natural gas at a very nominal figure to private industry to be converted within the province into new economic opportunities."

Hold. H. Koke was re-elected president of the association for his 14th successive term.

"Only invited violation," the report stated.

Erection of a sign at 104 street and Whyte avenue indicating the intersection could be reached by both high and low level bridges was also announced in the report.

In its brief pressing for synchronization of Jasper traffic lights the committee pointed out, the system would tend to control speed rather than make a "speedway" since rush hours rather than during all hours. Authorities thought restricting left hand turns to certain hours green light at each intersection.

It also said that if a national war emergency ever required the establishment of a second synthetic rubber plant in Canada, "it will undoubtedly be located in Alberta."

"I am hesitant to see a valuable resource like natural gas sent elsewhere to create jobs which might very well be created in Alberta."

"I am not suggesting this—but the idea might be debated of offering our natural gas at a very nominal figure to private industry to be converted within the province into new economic opportunities."

Hold. H. Koke was re-elected president of the association for his 14th successive term.

"Only invited violation," the report stated.

Erection of a sign at 104 street and Whyte avenue indicating the intersection could be reached by both high and low level bridges was also announced in the report.

In its brief pressing for synchronization of Jasper traffic lights the committee pointed out, the system would tend to control speed rather than make a "speedway" since rush hours rather than during all hours. Authorities thought restricting left hand turns to certain hours green light at each intersection.

It also said that if a national war emergency ever required the establishment of a second synthetic rubber plant in Canada, "it will undoubtedly be located in Alberta."

"I am hesitant to see a valuable resource like natural gas sent elsewhere to create jobs which might very well be created in Alberta."

"I am not suggesting this—but the idea might be debated of offering our natural gas at a very nominal figure to private industry to be converted within the province into new economic opportunities."

Erection of a sign at 104 street and Whyte avenue indicating the intersection could be reached by both high and low level bridges was also announced in the report.

DRIVER of this truck was killed in Kansas City this week and engine was draped with hay when train crashed into vehicle which was stalled at crossing. Impact sent cloud of grain dust swirling 40 feet into air when 12-ton-load of alfalfa was hit by 12-car train.

'Football Special' Termed Veritable Ship On Wheels

SANGUDO NEXT STOP IN TALENT SEARCH

Third stop on the Associated Canadian Travelers' Search for Talent tour will be made at Sangudo Saturday night.

In this first appearance at the northern Alberta community, the travelling "Zany 50's" troupe will perform and an elimination contest held to decide the top local artist of Sangudo. It will be heard over CFRN, co-sponsors of the search, at 8 p.m.

Capacity crowds attended the first Search for Talent shows in Thorhild and Viking the previous two Saturdays and the Sangudo Elks Lodge, sponsors of the show in Sangudo, are predicting the same for their community.

Decoy Clue Shattered In Missing Men Hunt

The hottest clue in the search for five hunters missing in Guy, Alta.—collapsed today. 14—a decoy goose found at North Bay.

Earlier it was hoped that the decoy, found in a newly ploughed field three miles east of Guy, was one recently remained by Clayton Band for Joe Dery, a member of the hunting party.

"It looks very much the same," said Rand, "but the stiffening wire was different and they didn't have the same grammar."

Relatives of the missing sportsmen also failed to identify the decoy, but an attempt to locate a hunter with equipment including a few goose decoys.

It was believed that the decoy was jettisoned from the aircraft either to lighten the load or leave a clue, before the plane crashed in the rugged northland.

SEARCH CONTINUES
The RCMP ground search party are continuing to comb the heavy bush area north of Whitecourt for trace of the aircraft in which James W. Mulachy, Joe Dery, Stuart Reid, Harry Pennington and Harry Morton vanished.

The are expected to finish covering the proposed search area today and will then return to Edmonton.

Edmonton's "football special," with orchestra, organized bingo games, movies, dancing and refreshment, will leave on schedule tomorrow at 3 p.m.

Holiday Travel Bureau officials said today that 118 tickets have been sold and only seven more persons are needed to make the trip possible.

Earlier this week it was feared that lack of support would cancel the special train plan.

Eskimo vice-president Henry Singer, organizer of the special, said it would be "a veritable ship on wheels."

SHUFFLE BOARD
There will be shuffle board, and home-renting games as well as bingo. Movies will be shown in the club car and an orchestra, piano, accordion and trumpet, will play continuously.

Henry also mentioned that "any person having any wind instruments should bring them along to help out with the band."

Dancing facilities will be provided by removing half the seats from one of the day coaches.

Supporters will have their choice in haberdashery between the familiar oil hat, in gold and green Eskimo colors, and the comical Dan'l moon chapeau, with preference probably going to the latter.

MOON SATURDAY
The train is scheduled to arrive in Winnipeg at noon Saturday and will return Saturday night—if Eskimos win. If they don't, week-end sleeping accommodations have been made and the special will return following Monday's game.

Cost of the trip varies from \$50 tourist to \$100 first class.

Edmontonians are not the sole passengers. Calgary's Mayor Don Mackay and a number of other Calgary noters will be aboard the special.

Woman Sues Edmonton For Bus Accident

An Edmonton woman is suing the city for \$15,227 damages arising out of a freak trolley bus accident of last June 12.

The trolley of the bus in which Mrs. Alice Noren, 1206-122 street, was a passenger became jammed with the overhead wire, snapped and slammed against a window of the bus.

It shattered the window and showered Mrs. Noren with glass, according to her statement of claim. She said she suffered numerous injuries, in addition to shock.

The accident occurred at the intersection of 122nd street and 12th avenue, near the intersection of 122nd street and 12th avenue, near the intersection of 122nd street and 12th avenue.

SEEKING REFUGE in Indian embassy at New Delhi is His Majesty Maharajadhiraja Tribhuvan Bir Bikram, King of Nepal. Informed sources said King was trying to escape demands of his subjects for democratic type of government to replace present feudal system.

Northwestern Ontario Independence Sought

POR T WILLIAM, Nov. 9.—(CP)—A group which wants to carve a new province called "Aurora" out of Northern and Northwestern Ontario met in this Lakehead city last night.

Churchmen Play Spread Of Gambling

TORONTO, Nov. 9.—(CP)—The social relations department of the Canadian Council of Churches declared today that the gambling habit is continuing to spread in Canada.

"Gambling practices of every kind are flourishing at an alarming rate, with the tacit consent of an apparently indifferent public," the department said in a report it will present to the seventh annual meeting of the Canadian Council of Churches, Nov. 14 to 17.

"Gambling has become a public menace." In the last five years, the amount of money wagered in parliament on Canadian race tracks has increased 42 per cent, the report continues. It is estimated that during that period Canadians won over \$25,000,000.

KEEP UP FIGHT
"There is no room or place for gambling in Canada, whether domestic or imported. We must continue to insist that there be no relaxation of the laws against the business of gambling. At the same time, we must work through the people of our churches to create and sustain a public conscience against gambling." Excerpts from the report were made public today by the Canadian Council of Churches.

Bank to Open 3 Branches

Three new branches of the Dominion Bank may be opened in Edmonton in the near future, it was announced yesterday.

In addition, several other branches are being contemplated within the next few years, but these are still in the tentative stage.

The three new branches would be erected on the South Side, north and west Kingsway areas. Definite locations are not yet known, bank officials here stated today.

One new branch was opened Monday at 124 street and 102 avenue.

A number of sites were inspected by A. C. Ashworth, Toronto, general manager of the bank, during his visit to Edmonton a month ago.

Parade Scheduled
The 38th Alberta Armoured Car Regiment will hold a muster parade on Nov. 13 at 8 p.m. at Connaught Armouries. Permission to qualify for local pay must attend this parade properly dressed unless leave is written is granted.

Truman Not Interpreting Party Losses

ABOARD YACHT MY MARY GAIL, Nov. 9.—(CP)—President Truman today closed his disappointment and probable surprise over Tuesday's Democratic election setbacks behind a cheerful appearance, and pondered his future.

Truman and his staff were not saying much about the results except to point to the fact that the Democrats retained control of the Senate, 48 to 47, and of the House of Representatives by what they described as a "comfortable" majority. It was whittled sharply from the present margin.

Quoted by reporters as to Truman's explanation for the defeat of top-ranking party members, Press Secretary Charles G. Ross said tersely:

"The president has not expressed himself as to that."

Truman was out the farthest on the political limb of any election forecast. He had lately predicted a sweeping majority for the Democrats. But, unlike his predictions in 1948, this did not materialize.

STILL CRUISING
Truman and his party meanwhile continued their cruise aboard the presidential yacht. The brief outing on the Potomac river and Chesapeake Bay—not far from Washington—may well be the president's last vacation of the year.

As an election aftermath, the question naturally arose whether Truman would seek his fifth year in office in 1960. Truman has never said he will not run again. At the same time, there has been no effort on the part of the national committee to build up another Democrat for the contest.

Korea Casualties Of Yanks 23,235
WASHINGTON, Nov. 9.—(UPI)—The United States defense department said today the number of American casualties in the Korean war officially reported through last Friday totalled 23,235, including 5,685 dead. Today's report added 828 casualties to the total of 27,610 announced last week.

YORKONTO PCARFUL
Queen's Park will put up a strong fight to hold Northern Ontario, he said. "Don't think that Toronto is not concerned. They know that if we establish a separate province they will be on relief in 30 days."

ALTERNATE J. J. Spooner of Port William said Ontario derives one-third of its revenue from the northern area, but returns only one-tenth to development, education and welfare.

ALTERNATE J. J. Spooner of Port William said Ontario derives one-third of its revenue from the northern area, but returns only one-tenth to development, education and welfare.

MAMA SANTA COMES ALONG FOR THE RIDE

WINDSOR, Ont., Nov. 9.—(CP)—Windsor's Santa Claus parade Nov. 17 will have a new feature — Mrs. Santa Claus.

Parade organizers said that Santa's wife will have a special place on board a diesel train that leads the procession. Santa himself, with his eight reindeer, will have the last-minute position in the parade.

Archbishop Notes Danger

YORK, Eng., Nov. 9.—(CP)—The Archbishop of York said today that Russia is determined that all rival economic political and social systems must be "utterly destroyed."

The Archbishop, Most Rev. Cyril F. Garbett, said Communists are "part of a worldwide conspiracy directed by the Kremlin against western civilization."

As examples, the Church of England's second-ranking prelate cited the Korean war, guerrilla fighting in Malaya and Indo-China, the Berlin blockade and Communist invasion of Tibet.

NO HALFWAY
He said Communists, "inflamed with missionary zeal for their cause," have "set out to spread it with the sword in one hand and the dagger in the other."

"They would never be content until a worldwide 'classless society' is established under the control of the party leaders in Moscow."

"The cold war which is now being waged may presently change into a hot war," the Archbishop added in a speech prepared for delivery to the York diocesan conference.

LONDON.—(CP)—A yak at the Regent Park zoo, perhaps keeps up with the fashions. He showed disapproval of a visitor's suit by heaving a horn in the sleeve and ripping it up to the shoulder.

Inflation, Defence Must Up Taxes

Bank of Canada Governor Advocates Pay-As-You-Go

TORONTO, Nov. 9.—(CP)—Graham Towers suggested today that, fundamentally, only by higher taxes will Canada be able to meet the inflation threat and pay for an expanding defence program which may have to be maintained "for many years to come."

The governor of the Bank of Canada, looking over the broad general picture of recent domestic and foreign monetary developments, advocated a pay-as-you-go policy in a speech prepared for delivery before a joint meeting of the Empire Club of Canada and the Canadian Club of Toronto.

The increased taxation, he said, must be aimed at a reduction of disposable income "to the extent that the available supply of goods is being reduced by the demands of the defence program."

He made these other points:

1. Since Canada's rearmament program was still only in the initial stages, the amount of taxes should also include, as much as possible, sufficient funds to pay for part of future defence spending.

2. It did not necessarily follow that large-scale defence spending automatically meant inflation. Canada could defend herself against inflation with the weapons of higher taxes, specific credit controls and a strong monetary policy.

ENDURANCE
3. Since the problem of defence likely would form part of the life of free countries for many years to come, policies in the economic field had to be those which could endure, not stop-gap measures. Above all, it called for pay-as-you-go financing and maximum production.

4. Trade restrictions by certain countries were providing a barrier to efficiency and ability to compete with the United States, and now was the time for these countries to have a "fresh look" at restrictive policies.

5. It was an outstanding fact that the overseas world was in trade balance with the United States, an achievement which 12

STABILITY ROCKED
Following the world's economic developments in post-war years, Mr. Towers noted that by 1949 the western world, at least, had worked its way through to a fair measure of recovery and stability.

But now this stability was being rocked by defence demands, far transcending the particular requirements of the Korean war. Fears of deep depression were not justified by the facts of the post-war world, and though the job before Canada and the free countries was unpleasant, it was a manageable one.

"That is not to say that it can be met in any easy way, or by the exercise of any financial sleight-of-hand."

A Netherlands factory produces electric meat-mincing machines capable of 800 pounds per hour.

French Plan Seen As German Answer

Defence Minister Claims Armed Germany Controllable

OTTAWA, Nov. 9.—(CP)—French Defence Minister Jules Moch argued yesterday that proper handling of the German rearmament question can make a vital contribution toward full European federation. It lies, he said, in a French "military plan for unified Europe."

But proper handling, he told a press conference, does not mean the majority Atlantic Pact plan to create German divisions and establish something that goes into a new German general staff.

"These moves France was 'absolutely hostile,' she was ready to see the creation of German units and their integration in European divisions, but they shouldn't be any larger than battalions—800 men—and they shouldn't be under any central German control."

In German divisions he saw the danger of resurgent German tyranny, of possible switches of German loyalties in an East-West war, of inevitable secret manipulations between those divisions which would emerge as a full-blown German army in time of crisis.

AGAINST RUSSIA. The European army, in its first year, could be 100,000 strong and could include 20,000 Germans. It could grow from there. At the same time France would proceed with her own plan to have 10 divisions by next year, 20 by 1953 for joint western security. Both would be part of the military wall against Russia.

Mr. Moch said he was sure agreement will be found on the question of German troops in Atlantic Pact discussion. In rearmament, he argued, no time is being lost because priority for rearmament has been given to France and other friendly countries.

"Atlantic Pact defence and foreign ministers are to meet in the next six weeks to seek a solution to this key problem."

He was asked "which is the greater threat, Russia or resurgent Germany?"

Dollar Chief Sees Easing

LONDON, Nov. 9.—(Reuters)—Sir Cecil Weir, chairman of the British Dollar Experts Board, said today that United Kingdom restrictions on dollar trade with Canada might be further eased.

"Some of these relaxations have already been made," he said in an interview. "But it is the hope of my board that some easements over a wider field may now be justified."

Sir Cecil was commenting on a speech in Ottawa yesterday by Trade Minister C. D. Howe of Canada in which he criticized Britain's restrictions on dollar trade and urged increased British purchases in Canada.

"My present opinion," Sir Cecil continued, "is that we can afford to take a few risks as in encouragement to, and an earnest indication of, our aim."

"That aim is to develop trade between Britain and Canada, not merely on the basis of balancing accounts, but to do so at the highest possible level of two-way trade."

Aussies Test New Fighter

MELBOURNE, Australia, Nov. 9.—(Reuters)—A pilotless, turbo-propelled aircraft, designed and developed in Australia, has made its first test flights. Supply Minister Howe and Beale said today.

"The aircraft, radio-controlled, is a very nippy little fighter," reports said.

Britain suggested the project more than two years ago. It had been one of the most closely-guarded secrets of defence research undertaken by Australia.

Only one aircraft on a limited order has been produced, but big orders are expected.

Doctors Vote At Vancouver

VANCOUVER, Nov. 9.—(CP)—The Vancouver Medical Association yesterday voted overwhelmingly for decentralization of hospital facilities because of the threat of atomic warfare.

Most of the city's doctors urged well-situated hospitals in the "interests of civil defence," and asked the government to establish a metropolitan health planning committee to plan future construction. More than 200 doctors voted.

The move stemmed mainly from a proposed \$100,000,000 hospital addition at Vancouver General Hospital.

Delegates said community hospitals could handle 90 per cent of medical operational requirements. Costs also would be much smaller than in bigger institutions.

Railway Carman Killed Instantly

FORT WILLIAM, Nov. 9.—(CP)—A CPR carman, John Shupkowsky, 46, of Fort William, was killed instantly here Wednesday night when the wheels of a box car passed over his body. A derrick was required to lift the car and extricate the man from under a wheel.

CPR Places Orders For 2,575 Box Cars

MONTREAL, Nov. 9.—(CP)—The Canadian Pacific Railway Company has placed orders for 2,575 freight cars to be delivered in 1951. B. W. Roberts, vice-president of purchases and stores, announced yesterday. Eastern Car, Trenton, N.S., will build 535 of the cars. Canadian Car and Foundry, Montreal, 1,234 and National Steel Car, Hamilton, 700.

Counter-Spy Found Hanged

BRUSSELS, Nov. 9.—(Reuters)—A civilian member of Belgium's counter-espionage service, who had access to highly-secret documents, was found hanged in the ceiling room at army headquarters here, it was disclosed yesterday.

Police say they do not suspect foul play.

Advertising In Canada Is Now Big Business

OTTAWA, Nov. 9.—(CP)—Advertising is playing an increasingly important role in Canadian business life.

And, along with the growth of the industries it has been pacing before the public eye in Canada, phenomenal post-war expansion, advertising itself has stepped briskly into the ranks of multi-million-dollar "big" business.

Official statistics today showed Canadian advertising agencies last year handled accounts totaling \$86,742,590, compared with \$79,224,000 in 1949. Gross revenues climbed from \$4,823,300 to \$12,516,300.

The advertising business itself

Pats Returning To Wainwright

TORONTO, Nov. 9.—(CP)—On the first leg of the journey to Korea 260 Ontario members of the second battalion of the Princess Patricia's Canadian Light Infantry left here by train early yesterday. They are due to sail for Korea late this month.

The train is returning the men to the Pats base at Wainwright, Alta., after an embarkation leave.

Frigates Leave

HALIFAX, Nov. 9.—(CP)—The Canadian naval frigates Swansea, New Liskard and Portage and the British submarine Andrew left here last night for Bermuda where the Swansea and Andrew will engage in anti-sub manoeuvres.

accounted for between 15 and 18 per cent. Mechanical charges amounted to 16 per cent of gross billings.

Nobel Prize Hinted For U.K. Physicist

Manitoba Politicos Ready for Battle

Leaders Announce Readiness To Take On All Comers'

WINNIPEG, Nov. 9.—(CP)—Manitoba's two senior political leaders touched off the second day of sitting of the current Manitoba legislature session yesterday by announcing they were willing to take on all comers.

Progressive Conservative leader, Douglas L. Campbell, and Brian F. Willis, leader of the Progressive Conservative party, recently quit the coalition government and took over as official opponents, clashed in the special session called to discuss flood expenditures.

The premier accused Mr. Willis of resigning from the government in order to take a strongly anti-coalition Progressive Conservative line. Willis defended his government's caution before making heavy financial commitments for flood rehabilitation.

He also accused "certain city politicians" for indulging in political controversies during the May Red River flood and reminded the house that he personally could have indulged in a city-council controversy, but that the true interest of the province and Manitoba were at stake.

Mr. Willis accused Mr. Campbell of "undermining public confidence" in the government during the flood and challenged the premier to test his leadership at a provincial Liberal convention.

BUDGET COMING
He described a "strategic and necessary" government's delay in announcing assistance to flood victims and demanded that the government seek \$4,000,000 more in financial assistance from Ottawa.

The house also heard E. A. Hanford, GCF leader, move motion of non-confidence in the government and said it had "failed miserably" to give the people leadership in time of crisis.

Members also approved on formal reading of resolutions validating diking agreements and emergency arrangements made during the flood. They heard Premier Campbell announce he would probably bring in his special flood budget late today.

Tablet Honors Famed Author
NIAGARA-ON-THE-LAKE: Ont.—(BUP)—A bronze memorial tablet to Canadian historical author William Kirby has been unveiled at City Hall.

Kirby, author of "The Golden Dog" and "The Golden Dog," died here in 1900. The tablet was erected on the recommendation of the Historic Sites and Monuments Board of Canada.

Kirby's "The Golden Dog" ranks as a Canadian historical classic. It deals with the final tottering days of the French Regime in Canada and the corruption rampant in the colony.

The inscription on the tablet reads: "William Kirby" "Journalist, Poet, Novelist, Historian, author of 'The Golden Dog' and other works." "Born at Kingston-on-Hull, England, October 13, 1817. Died at Niagara-on-the-lake, June 23, 1900."

Machine Gun Speed Measured
OTTAWA, Ont.—(BUP)—The National Research Council of Canada has developed a recording instrument to keep track of the rate of fire of aircraft machine guns.

The council said the recorder is being installed in airplanes by the division of mechanical engineering. It will let the pilot know if defense in his zone are slowing down the rate of fire.

The instrument works on a sound-wave basis, with a fly-spring microphone picking up the sound of the guns and timing the shots.

Elbow Shot For Squirrel
BERNIE, Ind.—(UP)—Gerald Brewer, 23, will watch where and when he scratches his back next time.

When Brewer scratched his back on a hunting trip, his 15-year-old brother, Gary, mistook his elbow for a squirrel and fired at it. About 60 shotgun pellets landed in Brewer's neck, back, arms and legs.

New Grain Elevator
LETHBRIDGE, Alta.—(CP)—The largest single-unit grain elevator in Alberta was opened recently three miles south of here. Costing \$80,000, it has a capacity of 120,000 bushels.

MILLET, Nov. 9.—Amateur Program was held at the Westin Hotel recently, when a good assortment of local talent was on display. The dressed doll was won by Mrs. C. Gierman of the district.

NEW ROMAN CATHOLIC dogma is read by Pope Pius XII proclaiming as Roman Catholic dogma 1,500-year-old church belief that body of Blessed Virgin expanded into Heaven and there reunited with her soul. Left to right: Prince Colonna; unidentified cleric; Nicola Cardinal Canali; Pope Pius; Magr. Domenico Anichini; Giovanni Cardinal Mercati; Magr. Enrico Danile.

Duplessis Calls Legislature Into Early Session On Rights

QUEBEC, Nov. 9.—(CP)—A Throne speech calling for a "full respect" of provincial rights yesterday launched a Quebec legislature session two months earlier than usual.

The session started about a month before resumption of federal-provincial talks, broken off in 1946, and of federal-provincial constitutional talks started last January.

The speech from the throne was read by Hon. Gaspard Fauteux, Quebec's new lieutenant-governor, in the legislative council chamber.

"We are convinced that full respect for the integrity of provincial autonomy is an essential requirement of well understood national unity."

A large part of the speech — a statement of government policy — was devoted to the general question of federal-provincial rights and taxation powers and the next meeting in Canada of the 11 governments in heads at Ottawa, Dec. 4.

The speech said Quebec province's representatives have "rightly stressed" that the Canadian constitution owes its origin to a "compact concluded between two great races, the traditions, the talents and the culture of which enrich Canada and constitute an untransferable asset."

BRIEF SESSION
It went on to say the Quebec government intends to "co-operate amicably, on a constitutional and equitable basis to the success of Canadian inter-governmental meetings."

Otherwise, the throne address dealt with every day problems of the government—agriculture, land settlement, health, labor-industry relations, roads and protection of the province's natural riches.

The legislative assembly, elected 1946, lower house, where the Union Nationale government of Premier Duplessis is dominant, met briefly after the opening ceremonies.

Government measures laid before it included one for a three-year, \$60,000,000 road-and-bridge-building program sanctioning an increase from 13 to 15 cents in the provincial tax on gasoline.

The extra gasoline tax will be employed to increase expenditure for winter roads by \$15,000,000 to \$20,000,000 a year.

Mining Plan For B.C. Seen

TRAIL, B.C. Nov. 9.—(CP)—A program to extract 2,000,000 tons of base-metal ore by open-pit mining methods has been started by Consolidated Mining and Smelting Company of Canada Ltd. at the Sullivan Mine at Kimberley, B.C.

Practically all of the 55,000 tons extracted have been taken out underground, and this will continue to be the major extraction method.

Before open-pit mining can be started, an overburden must be removed consisting of 20,000 cubic yards of gravel and 2,000,000 tons of rock. This will take about a year.

Sullivan ore yields lead and zinc and various by-products.

HIGH PRINCE, Nov. 9.—Canadian Legion held their regular monthly meeting Sunday afternoon, when a new member was initiated.

Arrangements were completed to entertain children between the ages of three and six years at Christmas Tree. This entertainment is open to all children of the town and surrounding district.

Strike Action Favored By Workers at Coast

VANCOUVER, Nov. 9.—(BUP)—Over 300 workers have voted overwhelmingly in favor of strike action to back up their demands for a new contract with a steel plant in Vancouver.

William L. White, president of the Marine Workers and Shipyard Workers Industrial Union, announced last night "the workers have voted 80 per cent in favor of strike action."

A government-dispersed strike vote against Western Bridge and Steel Fabrication Company of Vancouver.

"No strike date has been set," White said. "We expect to continue negotiations with the company."

Photos Irk U.K. Parson

LEICESTER, Eng., Nov. 9.—(Reuters)—A local clergyman has warned photographers that they will have to buy new cameras if he catches them outside his church taking pictures of couples wed in the local registry office nearby.

Rev. John Bunley Collins said he had been puzzled by people who had been taking pictures at his church. He had never taken place at his church.

Then he discovered that couples were posing for pictures outside the Norman door of his church after a civil ceremony in a hall nearby.

He called the practice "an appalling impudence," acting a lie and an exhibition of unjustifiable impudence.

In his parish magazine he said that if he catches anyone posing falsely outside his church, "the William Kirby has been unveiled at City Hall."

Machine Gun Speed Measured
OTTAWA, Ont.—(BUP)—The National Research Council of Canada has developed a recording instrument to keep track of the rate of fire of aircraft machine guns.

The council said the recorder is being installed in airplanes by the division of mechanical engineering. It will let the pilot know if defense in his zone are slowing down the rate of fire.

TIPPLERS OBLIGING

TORONTO, Nov. 8.—(CP)—There was a smooch on Frank Brown's door. He dropped the keys out a third-floor window and his two visitors—police—men—let themselves in. They found Brown and six other persons drinking beer illegally. Brown was fined \$10.

Parochial Convention At Mannville

MANVILLE, Nov. 8.—A Parochial Convention will be held here next week from Nov. 13 to 15. It will be a meeting at St. Paul's, St. Peter's, St. John's, St. Mary's, St. Michael's, St. James' and St. Anthony's churches. There will be a meeting at St. Michael's on Monday at 8 p.m. and at St. Anthony's on Tuesday, at 8 p.m. Meetings in Mannville will be held in the Parish Hall on Wednesday, Thursday and Friday evenings at 8 p.m.

Farm Family To Be Honored At Athabasca

ATHABASCA, Nov. 9.—E. S. Parsons and family, of Doyle, will be honored guests at a large get-together in Athabasca Community Centre on the evening of Nov. 11. Staged under the sponsorship of the Athabasca District Agricultural Society, the event will pay tribute to the family which recently was recipient of one of the Master Family awards rendered by the provincial department of agriculture. Representatives from the department in Edmonton, local officials and others are on the list of speakers.

Canada's first industries were mining and the fur trade.

Government Borrowing Of \$500 Millions Told

TORONTO, Nov. 9.—(CP)—Graham Towers, governor of the Bank of Canada, today disclosed that the government had to borrow some \$500,000,000 from the central and chartered banks to cover the flood of capital into Canada in the months preceding action to free the dollar.

It is not always realized, he said, that the government has had inflationary implications if it had resulted in a large increase in the cash reserves of the chartered banks.

"However, we set out to prevent this happening by selling in the market part of our holdings of government of Canada securities."

Mr. Towers doubted whether any country has ever experienced a capital inflow of proportionate size in such a short period.

FROM CASH RESERVES
"During June and July the Canadian dollar required in pay for the increased gold and United States dollar holdings of the foreign exchange control board were provided from the cash reserves of the government."

In August and September, as the capital inflow continued and then increased in volume, the government found it necessary to borrow from the chartered banks, by issuance of \$200,000,000 of deposit certificates and from the Bank of Canada to the extent of nearly \$300,000,000 by selling its exchange on a temporary basis."

This money covered the heavy flow of capital, most of it from the United States and including "hot" or speculative money which brought Canada's gold and dollar reserves to a record \$1,700,000,000 but exacted sufficient pressure to force the government to free the dollar Sept. 30.

IMPLICATIONS
"This financing with the Bank of Canada," said Mr. Towers, "would

Pantages, Thodos Wish Esks Luck

Jim Coleman

By DICK BEDDOES

A couple of guys who have 'been there,' as they say, said they hoped Annis Stukus and the Eskimos would get 'there' this year.

They were Rod Pantages and Pete Thodos, members of the Calgary Stampede in 1948 and '49, and associated with Montreal Alouettes this season.

These young men made it to the Grey Cup final with Calgary the past two years, helped the Stampede win it in 1948.

Said Pantages: "We're pulling for Esks to make it this season. That Stukus is a pretty good guy." Pantages and Thodos passed in Edmonton briefly yesterday on their way home to Vancouver.

Esks strength could spell difference between Bombers and Eskimos Saturday, with the Edmonton better equipped in that department. Winnipeg is regarded as having the toughest starting string in the country, but the Bombers reserves have not been noteworthy.

Stukus, on the other hand, feels he can call on such as Ted Tully, Ken Moore, Dwight Golouf, Bill Horie, Hank Dermer and Bill Horie for workmanlike efforts when his case gets trumped.

Esks' money is good. The gross gate approaching \$30,000 last Saturday, that is \$100,000 more than the club's budget.

And speaking of bucks, the Bombers are reported to have spent \$50,000 of 'em on seven American imports. Coach Frank Larson, according to popular rumour, receives \$700,000 per season for his services.

The Winnipeg Tribune yesterday branded Esks' hopes of defeating the Bombers for the title as a "joke." The Trib under a column entitled "Today's Chuckle," inserted the story about Edmonton accepting applications for Grey Cup tickets.

Actually, had they even finished last, Esks would still be in the hunt for the title. The Tribune's "joke" was a little premature. The story about Edmonton accepting applications for Grey Cup tickets.

BOB PAFFRATH ... All-Star Half

MORRIS BAILEY ... Tops At End

MIKE KING ... No. 1 Fullback

Bombers Unbeatable In Projection Room

WINNIPEG, Nov. 9.—(CP)—Winnipeg Blue Bombers scammed through an inch of snow last night in what likely is their next-to-last practice before Saturday's big game against Edmonton Eskimos—the second of the best-of-three series that Edmonton leads 1-0.

There was no muzzling in the camp about last Saturday's 17-0 loss to the Eskimos despite the running last night of films of the game which sports writers said showed a couple of bad breaks against Bombers by officials.

One, where back Tom Casey was charged with interference on an attempted Edmonton pass, showed no such action by the referee. Another, where a referee viewed the film said.

WHAT THIS? "They said Casey stepped in front of Edmonton's Doug Taylor to intercept the throw and was leaped on from behind."

Ahead 16-0 at the time, Bombers were satisfied in what proved one of the game's turning points.

Witnesses of the time also said that Ed Butler, Prairie was in contact with Winnipeg quarterback Jack Jacobs in an incident where Prairie caught the winning touch-down.

The play Saturday saw Jacobs fall while attempting to hit down a pass into the end zone.

Editors said the film showed Prairie's hand on Jacobs' back as he waited for the pass. When

prayer withdrew his hand suddenly, Jacobs fell.

SAME OFFICIALS: Bomber president Ralph Miesner said he had seen the film but there was no question of asking for a change in officials.

"Obviously, many mistakes," he said. "It was just unfortunate those occurred at such inopportune times. However, will be satisfied with the same officials Saturday and Monday."

There was some talk last night of celebrating Monday a half holiday for the game but mayor Garneau said it was out of the question. However, one of his aldermen said he thought it would be a good idea.

Eskimos Gain 3 Places On Conference All-Stars

By Al Vickery

WINNIPEG, Nov. 9.—(CP)—Only one Canadian—full-back Mike King of Edmonton—crashed the line-up of the 1950 Western Inter-Provincial Football Union All-star team.

The selection of 11 imports to the national squad—chosen for the Canadian Press by coaches and sports writers in league cities—probably was due to raising the import quota this year from five to seven players on each team.

League-winning Winnipeg Blue Bombers provided the squad with six players, including the only unanimous choice—tackle Buddy Timley.

Edmonton has three players, and Morris Bailey, full-back Mike King and half-back Bob Paffrath, on this year's team, while Saskatchewan Roughriders have two. An alternate team also was chosen.

Frank Larson of Bombers was named to coach the first team; Annis Stukus retains his position as coach of the second.

Jacobs, Timley, Casey, Brown, Bailey and Agulter were named on every ballot—either first or second team.

Quarterback Jacobs, former Grey Bay Packer, was picked by a wide margin over the rest. He picked up 56 points out of a possible 63 in the voting.

Berry, last year with Texas Christian, gained only 23 points for the quarterback post, but his brilliant ball-carrying rated him four first choices as a halfback.

Casey, swiftnapped Negro from the 1949 Hamilton Wildcats, was far ahead of the field in the choice for halfback.

A great defensive player last season with the University of Georgia, Bodine continued his good work in Canada.

Paffrath, former Ottawa Rough Rider, gives the all-star backfield another great defensive player. But the American import also has proved his worth on offense with his solid pass catching.

Last year the 265-pound King didn't get too much work with Toronto Argonauts of the Big Four so he searched his allegiance to Edmonton. His performance from the fullback slot has been little short of sensational.

Brown, 240-pound Negro from the Los Angeles Rams, was well in front in the voting for centre.

Adding plenty of beef to the heavy front wall is Druce, 260-pound, import from Tulane University. Paired with him at guard is the ever-reliable Matheson.

Jim Quidamette, Edmonton, was a close third in the balloting. Former pros Tinsley, last year with Los Angeles Rams, and Johnson, with Green Bay, easily earned the tackle spots.

At the end positions, the selection finally settled on Aguirre, league-leading scorer, and Bailey, top pass-receiver.

Alouettes Expect Filchock to Return

MONTREAL, Nov. 9.—(CP)—Football star Frankie Filchock "definitely will be back" in Montreal next year for Alouettes, club president Leo Dandurand said last night.

Filchock, former American professional star suspended for four years for failing to report a bribe offer, was signed yesterday by Baltimore Colts of the National league. His suspension in the United States recently was lifted.

Filchock belongs to the Alouettes, lives in Canada the year around and has signed only to play three games with the Colts," said Dandurand in an interview.

Dandurand also said that during the current Big Four season, two western Canadian and one eastern Canadian team had approached the Alouettes and had proposed a player swap involving Filchock.

Football sources here believed the teams were Ottawa Rough Riders of the Big Four and Regina Roughriders and Winnipeg Blue Bombers of the Western Conference.

It was understood they wanted Filchock to coach as well as play. Filchock has a wide reputation with Hamilton and Montreal as a field general and he was team captain of the Alouettes.

Los Angeles Rams, was well in front in the voting for centre.

Adding plenty of beef to the heavy front wall is Druce, 260-pound, import from Tulane University. Paired with him at guard is the ever-reliable Matheson.

Wiebe Heads Golden Bears

Former National Hockey league performer Art Wiebe has been appointed coach of the University of Alberta Golden Bears hockey team.

Wiebe, a veteran of 10 years hockey "know-how" with Chicago Black Hawks, succeeded Clarence Mohr, who resigned because of pressure of business.

During the three years under the helm of Mohr, who also coached at New Westminster, Bears dominated the Intercollegiate play. United States college teams also fell victims of the Bears.

Born in Rosthern, Sask., Wiebe played all his minor hockey in Vermilion and then came to Edmonton where he played for the Pooleys under Barney Stintz.

He also played for St. Paul and Kansas City of the United States league before moving up to Chicago of the Bears.

Touchdown Club members and others who desire to send victory greetings to the Eskimos in Winnipeg may do so by writing their name on any one of the placards appearing in Henry Singer's, Hudson Bay's, Mike's News, Jerry's, and Lloyd's coffee shop on 118 avenue.

Cost of getting on the Victory list is 25c.

All the names will be gathered Saturday morning and transcribed to one long telegram to the Eskimos, wishing them success in their quest for the western football title against Winnipeg Blue Bombers.

Several Calgarians, headed by mayor Don McKay, will be aboard the Eskimos' Special when it leaves Edmonton tomorrow at 3 p.m.

Altogether, choo-choo organizer Henry Singer expects 150 folk to be aboard. A small orchestra has been formed, and a day coach on the train will be turned into a recreation room suitable for dancing, bingo and a showing of the 1949 Grey Cup film.

Pennants and green and gold oil helmets will be distributed before the special pulls out. Women passengers will receive imitation corsages.

on the TOWN...

By Jack DeLong

Thursdays Thumpings

Does this sound familiar? "What if I do miss three or four days work? Any red-blooded boss should be glad to let a guy off to go to Winnipeg with the Eskos."

My don't the wind blow cold?

Football just keeps bobbing up all over our town. Doug, (Crazy Legs) Peyer of our wonderful Eskimos was the centre of a nice little social event at Strathcona High school yesterday. Peyer coaches Seana rugby team.

Appreciative students at the school made a surprise presentation of an inscribed watch to coach Peyer. They tell me the famed eccentric legs of backfielder Peyer shook more than when he runs with that pigskin as he "chokingly" made reply.

Touchdown Club member writes in part as follows: When handing out your orchids, how about tossing one to Ken Foss of Calgary. I understand he organized that contingent of Calgary fans who came up to the big game last Saturday.

I'm sure this town never saw such a demonstration of sportsmanship. Two of our American players on Eskimos told me they never saw anything like it.

While you're at it, toss a bouquet of poison ivy to chicken-hearted Edmontonians who bet against their own team. Can you imagine Canadians doing that?

Thanks Touchdowner for your letter. I thought I had handed the Canadians some orchids.

As to the poison ivy. Those guys who bet against Eskimos Saturday "collected" their poison ivy in my opinion when they paid off the bets.

Aviation inspector Ken Saunders usually has both feet on the ground but he's up in the air today.

Ken thinks somebody ought to do something about the thoughtless mess of wind-blown paper on city fences around airport area and near the packing plants.

You're so right Ken. Nothing mars scenic beauties like waste paper.

Miss Margaret Johnson of Vancouver thinks driver of Alberta car license No. 123-413 owes her an apology.

Miss Johnson says she was backing into a parking space in Bay store area Saturday when 123-413 nipped at her. The lady says later refused to move when she asked him to do so.

There are a couple of ways of looking at this thing. Could be that any man with enough nerve to turn down a lady driver deserves an orchid rather than consure.

What do you think folks?

A very good night to all and especially to the weatherman for some bulseye weather forecasting.

Mayor of Castor Killed In Highway Accident

LACOMBE, Nov. 9.—Herschel Parr, 54, mayor of Castor, was killed last night when the automobile he was driving ran into the rear of a truck on highway 12, 10 miles east of Lacombe.

Parr was a well known horse breeder in Alberta. He was serving his first term as mayor of Castor.

The accident occurred shortly after 6 p.m.

Parr was said to have driven his car into the rear of a truck driven by Johnny Bell of Clive.

Dr. M. C. Malton of Lacombe, who was called to the scene of the accident, said Parr had suffered fatal chest injuries.

Three Aldermen Seek Mayoralty

MEDICINE HAT, Alta., Nov. 9.—(CP)—Three aldermen will contest the mayoralty here Dec. 11. They are Wilson Riley and It. C. Leckweber, whose terms expire this year, and W. E. McComb, who will retire with only one year of his two-year term completed.

Mayor Hector Lang has announced his retirement.

RCAMC Parade

Regular parade for No. 36 CCS, RCAMC will be held here Saturday night at Prince of Wales Armory at 8 o'clock. A master parade will be held for all ranks. Personnel missing parade will not qualify for pre-Christmas LIQ pay.

DEMAND FOR SCOTCH STILL EXCEEDS SUPPLY

Low barley allocations have limited output of Scotch whiskies in the British Isles since early in the last war and it will be years before properly-aged liquors are available in sufficient quantities to meet export demands.

This was stated here today by J. H. Whyte of Whyte and Roulley Ltd., Glasgow exporters.

Mr. Whyte is making a routine business trip through Canada and the United States.

In Edmonton he is calling on J. Masson, chairman of the Alberta Liquor Control Board.

Mr. Whyte said this is the first year since early in the war that the British Government has permitted a normal allocation of barley for distilling of Scotch whisky.

"We have been unable to keep up with demand from the United States," he said.

COLD WEATHER PRIZE

BLANKET APPROVAL will be given this handsome prize in Hudson's Bay Company-Edmonton Bulletin contest now open to all readers of this newspaper. Winsome young lady demonstrates how cosy point blankets will be, comes Edmonton's winter.

Oldest Bulletin Advt. Sought In Bay Contest

An ideal prize for cold winter days awaits any Bulletin reader who can produce the oldest Hudson's Bay Company advertisement published in this newspaper.

The prize is a pair of Hudson's Bay point blankets and will be awarded in a contest which starts today and ends Tuesday, Nov. 21. All entries must be in by the latter date.

Sponsored jointly by the Bay and the Edmonton Bulletin, the contest is open to all readers of the paper.

Readers are invited to dig up old issues of the Bulletin—the older the better—and submit Bay ads to the store's advertising department.

A window display of all ads will be featured at the Bay during the length of the contest.

If you are a long-time reader of the Bulletin, and possess some old issues, send in your entry right away.

It may win you a lot of those world-dream blankets.

Air Lift May Be Switched

TOKYO, Nov. 9.—(CP)—Canada's part in the Korean airlift is scheduled to end shortly, but members of the RCAF's Thunderbird squadron predict they'll be back on the job soon.

The squadron of 12 North Star transports is based in its 25th-military ferry run from McChord Field, Wash., to Tokyo after five months.

Put its members, who have been carrying troops and supplies for the United Nations force in Korea, think they'll be performing similar duties for Canada's special brigade when it is dispatched to the Far East.

There is speculation here that the unit, 11,000-man special brigade, might go to Korea as the first in a series of units to be sent to Korea.

It is believed here that a permanent force, another change of plans is under way.

Coal freight rates are scheduled to jump \$2.5 a ton next March, and the railways have indicated another similar increase may follow a year later.

Mr. Tanner said he believed Alberta would have a surplus of power for sale outside the province in the not too distant future. He declined to discuss gas pipeline possibilities.

Speaking on the question of an oil pipeline to B.C., however, he said: "It's natural for oil to move this way."

Oilmen Expect Big Strike in North

WELCOME

'Sandy' To Get Choice Of Homes

WINNIPEG, Nov. 9.—The city of Winnipeg opened its doors today to an Edmonton resident, despite the fact that the two cities are involved in a major football feud.

The newly-adopted Winnipegger is a one-year-old cougar called "Sandy". The animal became ill recently at the Edmonton zoo. Officials issued an appeal for someone to adopt him as he wouldn't be tolerated.

T. H. Hodgson, superintendent of the Winnipeg parks board, offered to give the cougar a new home at his Asiniboine park zoo.

The park official adds that if he doesn't like an outdoor home he will give him a comfortable suite in the lion house.

R. Woodhead Is Dead

Wing Cmdr. Robert C. Woodhead, 36, of Edmonton, director of electronics for the RCAF, died in his office at Air Force Headquarters at Ottawa yesterday.

He had been stationed at headquarters since 1948 and had been director of electronics for almost two years.

A native of Edmonton, Wing Commander Woodhead was educated in Montreal where his father, Dr. W. D. Woodhead, is on the staff of McGill University.

At one time he commanded the RCAF's technical signals unit at Downsview, Ont.

Edmonton Man Dies In Crash

Milton Saul, 61, of Windsor, Ont., and formerly of Edmonton, was one of two men fatally injured in a highway collision near Poniac, Mich., Tuesday night.

Raymond Hansen, 63, of Dearborn, Mich., was also killed.

Mr. and Mrs. Saul moved to Windsor from Edmonton less than three years ago.

Mr. and Mrs. Hansen were injured when the car in which the two couples were riding crashed into a truck.

Veterans Make Memorial Plans

The Army, Navy and Air Force Veterans will hold a Memorial Day service Saturday at 10:30 p.m. in the clubrooms.

Archibald C. F. A. Clough will conduct the ceremony.

Members will fill in outside the clubrooms at 11:05 for the parade to the cenotaph. They are requested to wear medals, arm bands, and any unattached veterans are invited to parade.

University Service

A remembrance Day service will be held in Convocation Hall at the University of Alberta on Saturday at 10:30 a.m. The public is invited.

Prepare for Major Exploration Season

By Stanley Burke

Alberta oilmen are looking for a major oil strike in the north this winter.

The industry is preparing for the greatest winter exploration program ever undertaken in the vast territory extending from Lac La Poudre to Fort Vermilion. It will be the third winter season in the north and the second year of major activity.

So far, results have not been in the vast territory extending from Lac La Poudre, westward to the Peace River—Red River—Fort Vermilion area in the northeast corner of the province, nor far south of the Northwest Territories boundary.

Most of the country is missing and, with present equipment, can only be worked efficiently during the winter freeze-up.

Exploration outside this zone and profits from previous seasons will be offset by the cost of new drilling equipment that companies can devise.

They will live in much more comfortable quarters.

RUNNING WATER

The "dreadful" — as some photographers are called — have been working in their laboratories.

Some of the most beautiful photographs ever taken in the world are being made in the north.

But, in spite of many refinements, it will still be tough work. For example, before any equipment can be brought in thousands of miles of road must be bulldozed out and a lot of thousands of dollars are involved.

Many oilmen believe this is the crucial season in the north. If it is not struck, cost will force abandonment of large areas of land.

Exploration will be widespread.

Alta. Grain Movement May Last Most of Winter

Movement of Peace River district grain is expected to continue through most of the winter, with 4,500,000 bushels shipped to date.

James M. MacArthur, general manager of Northern Alberta Railways, said today that grain shipments from Peace River are now moving at a steady rate to Edmonton, after a very late start.

Mr. MacArthur estimated the total amount of grain for shipment at 10,000,000 bushels, against a crop of 20,000,000 bushels last year.

Some 50,000 bushels of grain are in Peace River district elevators.

Because of heavy frost damage this year, it is expected that Peace River farmers may feed a considerable amount of low grade wheat to hogs.

SHOPPING GUIDE

Needle-Know-How Handy for Christmas

By Bea Thrifty

Needle-pricked fingers, aching 'back and piled-up housework fail to swerve me from my allotment of "tasks to make for Christmas."

Thrifty family groves tired of quick-meals, supper-snacks, threads on the rag and pins in the salt-tray... but I shall go on—Exerciser!

Night now I'm whipping together a simple set of hood and bonnet aprons for the party-minded young couple living in the new house down the street. They've broken records of neighborly kindness and consideration... so I want to show some material appreciation. Aprons are made of butcher cotton, which I acquired at a mere pittance per yard.

From the assortment of gay and colorful patterns I chose the bar-man 'n' maid theme and I'm right; smack in the middle of a bit of fast needlework with out-line stitches of color doing most of the job.

Gal-neighbors' apron is a half-sister, gathered to a wasp-waisted band which finishes in a jerky sash bow at back. Boy-neighbor's apron is a business-like creation with pockets for cork-screws, bottle-openers, old olive pills, coasters 'n' such.

I hope they'll have as much fun with them as I have had making the party aprons.

From parties to practical things I bolt to a bolt of tea-towel material, plain or brightly patterned.

There was never a housewife who couldn't appreciate a tea-towel or two to augment her linen supply.

Just-plain, homely towels are perfectly wonderful... and a set on one-for-every-day dish-wipers makes a substantial sort of Christmas-time gift.

Dozens of different, shapely-patterns are available for the every-day theme with reminders for shopping, ironing, mending and schedules to boot.

took time out for tea partying yesterday... and my how I was impressed with a smart felt 'n' collar set worn by a dark-eyed matron of dubious age.

Showing the sleekness and know-how of a remarkably well-prospered grandmother, same elegant guestess was in a slim dark green frock of light wool.

Boasting discreetly about her youthful figure, she banded her waistline with a narrow-brown velvet belt and matched the accents of elegance with a tiny matching collar.

Very swish... and I envy her slim youthfulness for a woman who's been a touch of sweetness in more than 50 winters.

But the belt and collar idea set the old Christmas-gimmick 'n' swirlin' in the noggin... and what's there to stop a mass-production of belts and collars for women of few or many summers?

Patterns

Important dress-call for this important dress! It's all new and stunning... dropped shoulderline, wide collar, slim skirt, with apron-front stitched as centre seam!

Pattern 4364 comes in sizes 32, 34, 36, 38, 40. Size 36 takes 4½ yds. \$1.00.

Sand Twenty-five cents (25¢) in cents stamps cannot be accepted for this pattern. Price plainly size, name, address, style number.

Send order to Anne Adams, care of Edmonton Bulletin, Pattern Dept., 60 Front St. W., Toronto, 1A, Ontario.

Ex-Staff Member Honored at Dinner

Former staff member of Bechtel House, Miss Lillian Pratt was visited at Edmonton this week.

While here she was entertained at dinner by present staff members at the home.

Other guests present included Dr. Mildred Newell, Mrs. E. Paul, Mrs. W. E. Bracken, Mrs. R. C. (Mrs. Mary) Wilson, Miss Dorothy Smith, Miss Oline McKelvie, and Miss Erika Kramer.

Miss Pratt returned to her home in Oakville, Wis., yesterday.

WHY GROW OLD

Stooping Posture Points To Negative Personality

By Josephine Lowman

Have you ever noticed how straight and lean most of the leaders of our armed forces are? Even when they are past youth this characteristic is most evident.

Reason is twofold. In the first place, physical exercise, which was a part of their early training, taught them good posture and weight control and impressed upon them the necessity for physical fitness.

Also, the impact of personality and command are influenced by personal appearance. One would more naturally and enthusiastically follow the commands given by one of the lean leaders than by one who stands with his weight on one foot, his shoulders rounded, his head stuck forward and his abdomen protruding.

I do not know why we fail to realize how important good posture is to everyday life. Good posture, head up, body well balanced, gives the impression of success, of vitality, of control of spirit and mind as well as of control and poise of body.

When knitting sweaters for small children, use double yarn for the places that wear out quickest—the elbows.

CNR Choir Concert To Be Held Nov. 15

Under the direction of William Smith, the CNR choir will hold a concert Nov. 15.

Solists will be Violet Cummings and Thomas Alie. Another feature of the program will be a reading by Lorne Day, gold medalist.

The concert is being held at Metropolitan church. It is under the auspices of the Victoria WCTU.

DOROTHEA DIX SAYS

Should Not Criticize Interests of Others

DEAR MISS DIX: I am a woman 53 years old. As my husband goes to business every day, I am very lonely for both of my children are dead.

So I bought a bicycle and was enjoying it very much as it took my mind off my troubles. I was getting a great deal of exercise, which improved my health. But to my dismay I have been told by a woman that it is highly improper for a woman of my age to ride a bicycle and that nobody would think that one who did so was "nice."

Please tell me if this is true, for while I enjoy my bicycle I try to use common sense and good taste in everything I do and do not wish to be censured by right-thinking people.

I M. E. C. ANSWER: Don't listen to the woman who criticizes you for riding a bicycle at 53. Her remarks were most likely inspired by envy because she is too fat or stiff to mount one herself.

Pastel-Shaded Furs Take Fashion Limelight

Had Daniel Boone been in "Fur Fashions of '51" show yesterday he would have felt mighty proud.

Replica of his famed hat, modeled in Royal Kohlen mink with little Fay Ball, stole the show. Almost pure white, child's ensemble of full length coat, muff and cap, had been flown to the city by Northwood Fur Farms of Cary, Ill.

Featuring styles from Hudson's Bay Company's store, also was sponsored by 20th Century Club at Macdonald hotel, in conjunction with Alberta Fur Breeders' Association convention.

GIFT POTENTIALS
Black Persian lamb, lovingly lavished with mink swirling Canadian squirrel, leather soft seal or muskrat will be lugging the lap of many Christmas lads after yesterday's showings.

Popular trend is to chin-chuckle collars, generous cuffs, and backs softly flowing from tapered shoulders.

Expensively elegant, full length and fingertip models in silver-blue.

Send Twenty-five cents in coin for this pattern (always collect) to be sent to you. Send to: Household Arts Dept., 60 Front Street W., Toronto 1A, Ont.

Do You Know?

Q—Is Lake Mead, the reservoir of Hoover Dam, decreasing in volume since its construction because of silt?

A—Hoover Dam is not in jeopardy from silt. At the present rate, it would take the year 2300 for Lake Mead to fill up with silt. Competition of the sediment as tons of new silt pile up on it over the years will erode this date to the year 2300. It is planned to build dam upstream from Lake Mead to further hold off the silt flow.

YOUR BABY AND MINE

Tall Girl Should Be Made to Feel Proud

By Myrtle Meyer Eldred
Problem of the extraordinarily tall girl child brought a lot of letters from readers with a similar problem. It is questionable that adults have much to do with the success of such adjustment.

Mrs. F. A. A. has managed this successfully with her tall daughter and would like to tell mothers how she does this. She writes: She comes from tall parents and I admit that there were times when I wished I were not a head taller than any of the members of my class.

"When people comment about her tallness, we say 'Thank you, she is so straight and tall!' I know from experience that a child's

Anne Marie Patrick Weds G. E. Pelletier

CLYDE, Nov. 8.—St. Patrick's church was scene of the wedding of Anne Marie Patrick and Gerard Emile Pelletier recently.

Mrs. Patrick is daughter of Mr. and Mrs. Michael Patrick of Newtow, and Mr. Pelletier is son of Ludovic Pelletier of Vimy. Father Sullivan officiated at the ceremony.

Entering the church on the arm of her father, the bride was escorted in white satin. A beehive of seed pearls held her long veil in place. Her bouquet was of roses. Bridesmaids were Mary Patrick,

Fourth: Gail, Shaw, Humphrey, Lyons.

SINGLES WINNERS
In July and August, winners of the single were: ships, Gordon, (Barde, de Bourcier; second, Yeo, Vachey, Barrows.

Mrs. Gordon won the cup for singles. Entertainment at the social evening was in form of court waltz. First prize was won by Mrs. Yeo and Miss Yeo took consolation prize.

Mrs. Reed and Mrs. Eldred were in charge of refreshments.

GIFTS GIVEN
Members' appreciation of their officers' work was expressed when the executive was presented with gifts.

Waltz drives will be held throughout the winter. Afternoon of Nov. 21 the first one will be held in Raymond Hall.

Do You Know?
Q—Is the Panama Canal large enough to accommodate all ships?

A—No. The liners Queen Elizabeth and Queen Mary, as well as some of the newest U.S. navy warships, are too large for the present locks.

Train-Length Satin Gown Chosen By Killam Bride

KILLAM, Nov. 8.—Gothic arch of flowers and fern formed background in St. Paul's United Church recently for the wedding of Edna Lorraine Rawe to John H. White.

Bride is the daughter of Mr. and Mrs. John Rawe of Storm, and her husband is son of Mr. and Mrs. Oscar White of Killam. Rev. E. Brundage of Dayland officiated.

Given in marriage by her father, bride was gowned in heavy white satin. Self-covered buttons trimmed the bodice and her full skirt fell in train-length folds. Satin bonnet held her finger-ring veil. She carried a cascade of American Beauty roses.

PASTEL GOWNS
Mrs. Herman Rawe, maid of honor, wore pale green tulle gown with matching bonnet and carried yellow chrysanthemum.

Linda Robins was flower girl in rosebud pink with matching mittens and cap. Her colonial bouquet was of mauve and purple chrysanthemums.

Ralph Sorenson and Orval Rawe attended the bridegroom. Ushers were Kenneth Grant and Maynard Hill.

Mrs. S. Johnson played wedding music. Mrs. Marie Young was soloist.

Pink and white streamers and bells decorated the church basement for the reception where the 50 guests were received by Mrs. Rawe in grey ensemble, and Mrs. White who wore brown. Both wore corsages of pink roses.

Embedded in pink tulle, three-tiered wedding cake, centred the bride's table, flanked by green and mauve tapers and baby chrysanthemums.

After a short honeymoon, Mr. and Mrs. White will be at home at the bridegroom's farm south of Killam.

AFTER spending two weeks in the city the guest of Mr. and Mrs. W. White, Miss Edna Sparling has returned to Vancouver.

Miss Sparling is a former Edmonton resident.

White For Winter Forecast Flash From Style Masters

Every new winter season comes up with a new fashion color chart. But this season . . . there's little color in the chart. We're right in the middle of white for winter fashion parade.

While coats are no longer a novelty. They're appearing on every street. But while winter dresses are just beginning to appear.

The first to make their debut will be the white wool jersey . . . some all dressed up without sleeves. But now there are pretty magpie white crepe dresses, some, times brightened with gold sequins.

Other plans for the winter include a theatre party, fashion show. Annual banquet will be held in November on the second day of the convention when A. L. Smith, K.C. MP, will be guest speaker.

Calendar
Edmonton House Guild will meet at St. James Parish hall, Friday at 7:30 p.m.

Elizabeth House Guild will meet at St. James Parish hall, Friday at 7:30 p.m.

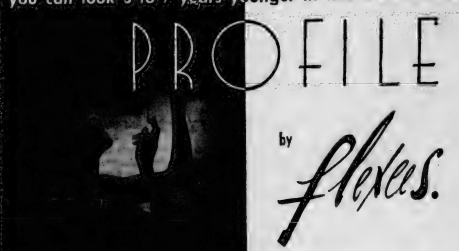

FRANCIS WINSPEAR

Leading Edmonton businessman, President of the Canadian Chamber of Commerce and Past President of the Edmonton Chamber of Commerce, will appear on the Dominion Network's thought-provoking program, "Cross Section," tonight at 9:30 p.m. on CFRN.

QUESTIONING CHINESE Communist soldiers captured in fighting above Hamhung, North Korea, are two U.S. officers. Notice prisoners' well-padded clothes they wear for approaching winter "cold war." U.S. 8th Army has confirmed that up to 16,000 Chinese troops are fighting in Korea and General MacArthur was reportedly taking a serious view of intervention.

Liberals of Ontario Face Choice of Oliver Successor

TORONTO, Nov. 9.—(CP)—Liberals of Ontario today plunged into a two-day convention called to select a new provincial leader and to shape a policy for the next provincial general election campaign.

The leadership field will take shape definitely this afternoon when aspirants for the post vacated by Farquhar Oliver more than a year ago will be nominated officially and make their appeals for support.

At least eight men will get into the field. Pre-convention speculation centered mainly on the chances of two—John G. Brown of Kitchener and Pickering's Party sources look on the race as wide open but concede to these the positions of favorites.

Federal support appeared yesterday for Mr. Brown, when Immigration Minister Harris said he would **HOWE FOR BROWN**

Harris emphasized at a press conference that his decision was a personal one as a delegate and in no way indicated the stand other members of the federal cabinet might take.

HOWE DIFFERS

However, one report said Trade Minister Howe had also told a number of Liberals he would also vote for Mr. Brown.

It was expected that Mr. Thompson, who represents Ontario constituency in the House of Commons, would have support from federal party men. In addition, he has been campaigning intensively, speaking to local Liberal associations in many parts of the province.

However, last-minute support for any of the other candidates might sweep aside all advance speculation.

Six others definitely in the field are Campbell Calder, MPP for London; Charles W. Cox, MPP for Fort William; Controller Arnold Hicks; John J. Sullivan of Hamilton; Norman O. Miller of Preston; and Dr. Harry Caldwell, director of the school of social work at the University of Toronto.

TWO LAST NIGHT

Mr. Hipel, a former provincial cabinet member and Speaker of the legislature, and Dr. Cassidy announced their candidacies.

Berg Sounds Red Warning At Vancouver

VANCOUVER, Nov. 9.—(CP)—Carl Berg, of Edmonton, vice-president of the Trades and Labor Congress, said that Communists must be kept out of every civic group in event of disaster.

He addressed members of the District Trades and Labor Council last night, reporting on the suspension of Vancouver Civic Employees' Union, Local 28, from the T.L.C. because of alleged pro-Communist officials. He plans to organize a new local.

In the event of war, civic workers would be a key group in the city's plans to meet enemy attack, said Berg.

With Communists in control, "a disaster would be rampant," he added.

The civic union has a membership of 1,000.

Navy League Resumes Custom Of Gift Bags

OTTAWA, Nov. 9.—(CP)—The Navy League of Canada is back to its wartime practice of sending gift bags to the men of Canada's navy on active service.

The navy said yesterday the league is sending 833 of its traditional dilly bags to the three Canadian destroyers serving in the Korean war theatre, enough for every officer and man.

The bags contain such useful items as writing paper, toilet articles, reading material, candy, concentrated foods and mending kits. During the last war the league supplied thousands to naval and merchant men serving at sea.

One million, six hundred and thirty-three patients received medical care for acute diseases in Canadian hospitals in 1951 and the average stay of all patients was 10.5 days.

Scrap Heap Set For Cruise Ship

QUÉBEC, Nov. 9.—(CP)—The charred ruins of the Canada Steamship Lines' cruise ship, Quebec, destroyed by fire at Tadoussac, Que., in August, will be broken up for scrap, it was announced yesterday by Davis Shipbuilding at nearby Lauzon. The fire aboard the 7,000-ton pleasure ship took seven lives.

Loser Doubles Election Loss

NEW YORK, Nov. 9.—(AP)—Leslie M. Black, Brooklyn textile manufacturer who lost a \$10,000 charity bet to the New York Daily News that the accuracy of its pre-election majority poll says he is going to throw in an extra \$10,000 for charity.

The News will give his \$10,000 donation to charities of its own choosing.

Australia's Fraser Suffers Relapse

WELLINGTON, N.Z., Nov. 9.—(Reuters)—Peter Fraser, former prime minister of New Zealand, left a relapse during the night.

He had been recovering steadily from a severe illness.

A medical bulletin issued today said the relapse had set Fraser back "a good deal" but there now was a definite improvement.

Dispute Hearings

MONTREAL, Nov. 9.—(CP)—Justice R. L. Kellock of the Supreme Court of Canada yesterday resumed private hearing in the wages-hour dispute between 31 railway brotherhoods, representing 14,000 non-operating workers and Canada's major railroads.

The first regular mail-coaches in England started running from Bristol in 1874.

Canada Will Seek Steel In Europe

'Shopping All Over' for Supply To Meet Needs for Civilians

By John E. Hird

OTTAWA, Nov. 9.—(BUP)—Canada went shopping in Europe today for steel to supply its civilian needs.

A trade department spokesman said negotiations were underway with French officials and that Canadian representatives were "shopping all over" for steel supplies.

"We will know very shortly what quantities we will get," he said.

The additional steel would supplement available Canadian supplies made available to Canadian defence plants.

Trade department sources said a threatened shortage of structural and fabricating steel for defence purposes had been eased by the signing Tuesday of a new reciprocal priority agreement between Canada and the United States.

"We expect this new arrangement will go a long way to help defence producers obtain the steel they require," he said. "It will mean that steel supplies will not deteriorate as much as had been expected."

SUPPLIED FROM U.S.

Under the agreement, only steel for defence needs will be supplied from U.S. mills.

Steel from countries other than the United States would help relieve the light supply situation on the civilian market.

Negotiations with France were not beyond the preliminary stage, a spokesman said, but they are going ahead. At the same time, Canadian trade officials were sounding out other steel producing countries on the possibility of buying from them.

The new American supplies, made available under the joint industrial mobilization pact signed last month in Washington, and European imports would not completely solve Canada's steel shortage.

Under the agreement, only steel for defence needs will be supplied from U.S. mills.

Steel from countries other than the United States would help relieve the light supply situation on the civilian market.

Negotiations with France were not beyond the preliminary stage, a spokesman said, but they are going ahead. At the same time, Canadian trade officials were sounding out other steel producing countries on the possibility of buying from them.

EVERY TEAM NEEDS TRAINED RESERVES

No. 418 City of Edmonton Light Bomber Squadron

NEEDS MEN NOW!

Strong reserves make a strong team. The R.C.A.F.—Canada's air defence team—must have a stronger reserve line—now. This is your opportunity to serve Canada and learn about modern aviation in your spare time. When you join the Reserve you join the R.C.A.F.

In the Air Force Reserve you get valuable training in any one of many practical trades. You make new friends. You spend one evening a week at class and technical training, and Saturday afternoons at actual operations on your air field. There are sports facilities and you can take part in Summer camp exercises.

You are paid at regular Air Force rates for the time you spend in training and can earn up to 65 days pay per year for full attendance.

EDMONTON HAS A RIGHT TO BE PROUD OF ITS AIR FORCE RESERVE UNIT

If you can't go active—go Reserve. Find out today how you can become a member of the R.C.A.F. in your spare time.—Apply in person to

The Commanding Officer,
418 Light Bomber Squadron
M.F.O. 1315,
Edmonton.
Phone: 28161

or

R.C.A.F. Recruiting Unit,
Wallace Building,

Royal Canadian Air Force

THIS BEEF DIDN'T PAY

TORONTO, Nov. 9.—(CP)—When Martin Nowak, 31, walked into the suburban New Toronto police station last week to complain about a parking tag, he was promptly arrested on a fraud charge. In court yesterday, as his case was adjourned, he was arrested again. This time police had a warrant sworn by a woman who claims he has done nothing about the house she gave him \$3,000 to build.

134 Quit Work In East Plant

PORT COLBORNE, Nov. 9.—(CP)—Production was halted at the Lakeside Foundry Ltd. plant at nearby Hambleton yesterday when 134 employees struck for higher wages.

The plant produces machine tool castings. The strike was called by the United Steelworkers of America, which recently obtained bargaining rights for the employees, and had been bargaining for a wage contract.

Visas for Peace Congress Denied

LONDON, Nov. 9.—(AP)—Britain has rejected more than 200 requests by Communist and fellow-travelers for visas to attend the World Peace Congress which opens in Sheffield Monday.

More than 200 other visa applications have been granted. Qualified informants reported last night that among those who were turned down was Russian writer Ilya Ehrenburg.

Gold Arrives

MONTREAL, Nov. 9.—(CP)—Six tons of gold were landed yesterday at the Royal Bank of Canada head office here yesterday, moved in extreme secrecy Tuesday from the liner Empress of France.

3 Canadian Warships Get Anti-Sub Training

TOKYO, Nov. 9.—(CP)—The three Canadian destroyers that have been operating with United Nations forces in Korean waters today were on their way to Hong Kong for a brief spell of anti-submarine training.

They will work out with a British submarine off the big naval base.

The Albatross and the Cayuga are due to reach Hong Kong Friday. The Stennis, carrying a British carrier, is scheduled to arrive there Saturday.

The destroyers in the war zone since July 21, represent only part of Canada's contribution to the United Nations fight against the Communists in Korea. Twelve HCUV North Star planes are operating on the trans-Pacific airlift between McChord Field, Wash., and Tokyo. An advance party of the Canadian army's 11,000-man special service force has reached Korea and the second battalion of the Princess Patricia's Canadian Light Infantry is due to sail for liberation of the South Korean Korea late this month.

I.K. Sees Peace BY Reds' Recognition

Best Way to Prevent General Asiatic War, In British View

LONDON, Nov. 9.—(UP)—The British government, despite rude rebuffs from the Chinese Communist regime is still convinced that the best way to prevent a general Asiatic war is to get the new China admitted to the United Nations.

The British government also is convinced that the Russian "game" is to try to keep Communist China out of the United Nations where she might have contact with the West.

These views were cited again in British official quarters today as further evidence of Britain's determination not to change its policy of recognition of Red China at this time and probably not at all unless the West's efforts to prevent a big Asiatic war fail.

Great Britain won a major point in this policy toward China in the United Nations Security Council yesterday. It got approval of a resolution to invite Chinese Communist representatives to participate in discussion of Gen. Douglas MacArthur's charges that Communist China has intervened in the Korean war.

STICK TO GUNS

Britain's efforts—almost a year old—to establish full diplomatic relations with Communist China and get her admitted to the UN have failed. And a more impetuous nation long ago probably would have reversed its policy in the face of Chinese rebuffs.

The British government is not very hopeful that Red China will show a more friendly attitude and make possible the exchange of ambassadors. But the British still think their policy is basically right and plan to stick to it. They also feel that to abandon their efforts to bring Red China into the community of nations would play directly into the Kremlin's hands.

The British have not been deterred from this policy despite criticism in the United States.

NO AGREEMENT

Britain granted de jure recognition of the Chinese Communist government last Jan. 6—after India and Pakistan and on the same day as Ceylon and Norway. Its action was based on the fact that the Communist government was "in effective control of by far the greatest part of the territory of China." At the same time it named a charge d'affaires in Peking and announced its desire to exchange ambassadors.

Subsequent exchanges between London and Peking have failed to reach agreement for exchange of ambassadors.

Ontario Fire Death Toll 7

TORONTO, Nov. 9.—(CP)—Seven persons were killed and 47 injured in Ontario fires in the last three months, the provincial fire marshal reported yesterday.

During the three-month period there were 4,381 fires, causing damage estimated at \$2,860,331. The fire loss for the first nine months of 1950 totals \$13,564,168.

In Honor of King STOCKHOLM, Sweden, Nov. 9.—(AP)—Two American destroyers, the Soley and Furse, arrived yesterday to honor King Gustaf V at his funeral tomorrow.

Two leading parties, each consisting of 377 men and an officer, will participate in the funeral procession.

Lithuanian Medico Has Had Enough 'Isms'

SYDNEY, N.S.—(CP)—A Lithuanian doctor who at various times has been pursued by Germans, Russians and Arabs would like to practice in a country with no "isms."

Dr. Jacob Lipschitz fled with his family from his native Lithuania to Russia at the age of nine, when the Germans took over. The Russian revolution meant a trek to Germany. Between the two world wars he studied medicine in Berlin and later practiced neurology and psychiatry in the German capital.

In 1947, he settled again in Jerusalem.

Then came the conflict in Palestine, and he found himself besieged by Arabs. The small Haganah group after more than two months escaped at night from the Arab besiegers. For 15 more months he fought with Jewish troops and when it was all over his practice was still in Arab territory.
